August 6, 2010

St. Louis, MO – Congressman Todd Akin (R-MO), today released the following statement regarding the revised estimate showing that 131,000 jobs were lost in July.

“It is obvious that the majority’s so-called economic stimulus which was passed on the backs of small business and American families is not doing what was promised. Further, American families are facing the potential of an historic tax increases if the majority makes good on their promise to allow the Bush tax cuts to expire.

“These numbers reflect the backward policies being promoted by an economically tone deaf Administration out of touch with the real world.”
