Waste. Fraud. Abuse. Corruption. Unfunded mandates. Over-regulation. Duplicative and unnecessary laws.

It's time to take the garbage out of government. As a member of the RSC Sunset Caucus , Todd Akin

is committed to cleaning Washington up - one step at a time.

If you know of a federal law that needs to be "deleted," let Congressman Akin know. Report programs that need to be eliminated, wasteful spending that needs to be curtailed and abuses of federal power. Your idea might become the basis for legislation to repeal a current law or roll back an intrusive federal power.
